WORKS IN PROGRESS.

The MS. of an 'Index to the Literature of Thorium,' by Cavalier H. Joüet, Ph.D., of Columbia University, New York, has been examined by each member of your committee, and recommended for publication to the Smithsonian Institution. It is now being prepared for printing.

Mr. Benton Dales, of Cornell University, has in preparation 'An Index to the Literature of the Yttrium Group of the Rare Earths.'

Reports of progress have been received from Messrs. Frank R. Fraprie and H. Carrington Bolton.

It is the sad duty of the committee to record the death of one of its original members, Professor Albert R. Leeds, Ph.D., long professor of chemistry in the Stevens Institute of Technology, Hoboken, N.J. His contributions to chemical bibliography include 'Indexes to the Literature of Ozone,' and of 'Peroxid of Hydrogen.'

It is gratifying to note the increasing and continued interest in bibliography on all sides, and the committee stands ready to encourage the movement in chemistry by practical assist-

ance to those desirous of contributing to the now considerable list of indexes. Address correspondence to the Chairman, at the Cosmos Club, Washington, D. C.
